Dear Mr. Weisberg:

Thanks for your letter.

I don't have enough of the facts to argue with you whether NBC News or the Today program should have accepted as newsworthy in the past some of the specific things you felt were newsworthy. But, even without those facts, I don't believe I need accept your implication that NBC was trying to suppress any material, such as reports unfavorable to the Warren commission, in view of the fact that NBC News has covered various challenges to the Warren report and Today has interviewed some of the harshest critics of the Warren report.

Sincerely,

Bill Monroe
